COURSE DESCRIPTION

The course consists of four half-day lectures on “nuts and bolts” practical clinical oral pathology focusing on oral cancer and other mucosal disorders commonly seen in the practice of dentistry. This is a very enjoyable program that **covers Clinical Oral Pathology in a way you've probably never experienced before!** The lectures are presented by two highly experienced clinicians and educators in a casual, relaxed and enjoyable atmosphere with ample opportunity for audience participation. There will be special interactive clinicopathologic conferences (CPCs) using high quality clinical photos of actual cases, enabling participants to practice what they have learned. This course is appropriate for general dentists, specialists, hygienists and physicians.

LEARNING OBJECTIVES

Health professionals completing this course will feel comfortable in addressing their patients' concerns about oral cancer. They will know how to recognize specific oral lesions, formulate a differential diagnosis, know what to do to obtain a definitive diagnosis and know how to treat and manage these lesions. In addition, they will know the utilitarian value of newer diagnostic aids and how to do a thorough oral exam.

THE PRESENTERS

**James F. Drummond, DDS, MSD, PhD
(Course Director)**

Professor Emeritus of Oral Pathology at the University of Kentucky College of Dentistry. Dr. Drummond has extensive clinical and teaching experience and has authored numerous publications in Oral Pathology. He has lectured both nationally and internationally. For twenty-nine years, he has been Course Director of the highly popular CE course “ Practical Oral Pathology for the Oral Health Practitioner” offered annually in Branson, MO.

Douglas D. Damm, DDS

Professor Emeritus of Oral Pathology at the University of Kentucky College of Dentistry. Dr. Damm is past president of the American Academy of Oral and Maxillofacial Pathology. He is co-author of the “Color Atlas of Oral and Maxillofacial Diseases” and the textbook “Oral and Maxillofacial Pathology” that currently is used by most dental schools. He is a recognized expert in the field of Oral Pathology and has lectured extensively on the subject.

PROGRAM INFORMATION

COURSE TUITION

- ◆ Before: 9/15/23 \$590/dentist \$390/auxiliary
- ◆ After: 9/15/23 \$620/dentist \$420/auxiliary

The tuition fee includes admission to the course, course handouts, breakfasts and refreshments during breaks. Applications for registration will be processed in the order they are received.

EARLY REGISTRATION IS RECOMMENDED.

CONTINUING EDUCATION CREDITS

This course carries 20 hours of approved CE credit not including breaks. It is co-sponsored by the Arkansas AGD, an AGD PACE approved provider of CE credit for Fellowship and Mastership Awards.

Printed CE certificates will be distributed on the last day of the course.

CANCELLATION POLICY

Tuition fees, minus a \$25 processing fee, will be refunded if notice of cancellation is received by September 21, 2023.

No refunds will be given after this date.

- Get 20 hours of CE and AGD credit in one course
- Take one last beach trip before winter hits
- Do early Christmas shopping at nearby 129-store outlet mall
- Great golf, great dining, great relaxation and a great CE course
- Enjoy the warm sunshine, emerald water, and sugar white sand beaches!
